

Mark J. Neal, A.I.A.

Principal

Member - *American Institute of Architects*
Registration: 1986 Washington State #4585

Education:

Bachelor of Science in Architectural Studies
Washington State University – 1977
Bachelor of Architecture
Washington State University – 1978

Personal Statement: *Project success is measured in a reflection of the owner's goals and objectives for environment we design. Those goals and objectives are individual and unique to each project. Ranging from simple functional elements, through budget considerations, to the character and emotions of a space; quality design must respond to each. Only when both function and aesthetics are addressed can a project be successful.*

Representative Projects Include: Responsibility for Overview and supervision of all projects for the firm.

Brad A. Brisbine

Project Architect

Registration: 1987 Washington State #4858

Education:

Bachelor of Science in Architectural Studies
Washington State University – 1977
Bachelor of Architecture
Washington State University – 1978

Experience Prior to Joining the Firm:

Two years cost estimating/office manager for Grashuis Builders, General Contractor.
Eight years with The DOH Associates, Architects and Planners.

Personal Statement: *Dedicated to functional problem solving while providing the most appropriate beauty possible within an owner's budget.*

Experience With the Firm:

Mr. Brisbine's responsibilities during the last 18 years with M.J. Neal Associates include those of project designer, job captain, and project administrator. Mr. Brisbine has brought to our firm an array of diverse design experiences, and draws upon his painting, sculpture and photography background. His strong background in contract administration provides a unique understanding of process as it relates to project facilitation and completion. Many of the projects he has been apart of involve public use and group functions.

Carson A. Lutz

Project Manager

Education:

Bachelor of Architecture
Washington State University - 2001
Bachelor of Science in Architectural Studies
Washington State University - 2000

Experience Prior to the Firm:

2 years at Lee Kirk Architecture, a firm specializing in church planning and design, as well as custom homes. Experience included various church projects in multiple stages from master planning to detailed interiors.

Experience With the Firm:

Since joining the firm in 2003 Mr. Lutz, has seen a number of projects through from conceptual design to construction completion. For the projects he has managed, such as the Penny Road Office Building and the 9th Street Office Complex including Gold's Gym, Mr. Lutz maintains a high-level of involvement with the clients in areas ranging from design specifications, production, construction phase support, and marketing. Mr. Lutz's diverse portfolio of design and graphic skills combine well with his technological expertise to transpose ideas into realistic images for presentation and production.
